EVACUATION TRAINING

15

FIRE TRAINING

FIRST WARDEN (F.W)

Training objective:

- Be trained in the use of different types of fire extinguishers

Training schedule:

Theory:

- The fire triangle
- Fire classes
- Fire extinguishing agents

Practical:

- How to use fire extinguishers
- Fighting fires with fire extinguishers
- Fire extinguishers exercise on a real fire using CO₂ and water + additive extinguishers
- Using a fire blanket on a pan fire

Prerequisites: None

Personnel concerned: All audiences

Refresher course: To be provided in accordance with mandatory legal provisions and internal employer requirements.

Duration	Training location	Languages	Number of participants
2 hours	At Gingé-Kerr or on the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the course.

AWARENESS OF THE FIRE RISK ASSOCIATED WITH LITHIUM-ION BATTERIES

Training objective:

- Understanding the risks associated with lithium-ion batteries
- Protecting yourself from lithium-ion battery fires
- Responding safely and effectively to a lithium-ion battery fire

Training schedule:

Theory:

- Definition of a lithium-ion battery or accumulator
- The causes and consequences of a fire
- The various risks
- Measures for the prevention and protection of persons and property

Practical:

- What to do with a damaged battery & in the event of a lithium-ion battery fire
- Extinguishing on a flame simulator with a fire extinguisher
- Use of a fire blanket suitable for lithium-ion battery fires

Prerequisites: None

Personnel concerned: All audiences

Refresher course: To be provided in accordance with mandatory legal provisions and internal employer requirements.

Duration	Training location	Languages	Number of participants
2 hours	At Ginge-Kerr or on the customer's site	French English German	Maximum 12 people

FIRST INTERVENTION TEAM MEMBER (F.I.T.M)

Training objective:

Be trained in fighting a fire outbreak, raising the alarm, and evacuating the building.

Training schedule:

Theory:

- Definition of the role of a First Responder
- The alarm, the alert
- Fire signaling
- Human risks
- The different types of fire extinguishers and fire hose reels (FHR)

Practical:

- Raise the alarm, alert the emergency services
- Select and use the appropriate fire extinguishers
- Extinguishing a real fire with CO2 and water + additive extinguishers
- Using a fire hydrant
- Using a fire blanket on a pan fire

Prerequisites: None

Personnel concerned: General public

Refresher training: To be planned in accordance with mandatory legal provisions and the employer's internal requirements.

Duration	Training location	Languages	Number of participants
4 hours	At Ginge-Kerr or at the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the course.

SELF-CONTAINED BREATHING APPARATUS (S.C.B.A)

Training objective

Être formé pour travailler dans des atmosphères irrespirables avec l'équipement approprié.

Training schedule

Theory:

- Risks associated with oxygen deficiency
- Dangers associated with areas with unbreathable atmospheres
- Equipment nomenclature
- Rules for use, checks before use, standard dressing procedure
- Managing equipment, role of the work supervisor
- Physiological effects of wearing SCBA

Practical:

- Knowledge test (multiple-choice questions)
- Assessment of knowledge through observation of behavior during practical work

Prerequisite: Possession of a valid medical certificate from Occupational Health stating fitness to wear the ARI.

Personnel concerned: Individuals required to work in unbreathable atmospheres using SCBA

Refresher training: Every two years

Duration	Training Location	Languages	Number of participants
8 hours	At the customer's site	French English German	Maximum 8 people

A personalized training certificate will be issued to the employer at the end of the internship.

FIRE PERMIT

Training objective

Recognize and control the risks associated with hot work in order to prevent fires from starting.

Training schedule

Theory:

- The principle of fire prevention
- Different types of fire
- Different modes of fire propagation
- Fire behavior
- Human behavior
- Personal protective equipment
- Filling out a fire permit

Practical:

- Scenario simulation
- Drafting of the fire permit prevention plan
- Debriefing

Prerequisites: None

Personnel concerned: Anyone required to work in hot spots

Refresher training: In accordance with mandatory legal provisions and employer requirements

Duration	Training Location	Languages	Number of participants
4 hours	At Ginge-Kerr or at the client's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.

MOBILE FIRE UNIT (M.F.U)

Training objective

Be trained in the use of different types of fire extinguishers.

Training schedule

Theory:

- The fire triangle
- Fire classes
- Fire extinguishing agents

Pratique :

- Using fire extinguishers
- Fighting fires with fire extinguishers
- Firefighting exercises on real fires with CO2 and water + additive extinguishers
- Using a fire blanket on a pan fire

Prerequisites: None

Personnel concerned: General public

Refresher training: To be planned in accordance with mandatory legal provisions and the employer's internal requirements.

Accessible to people with reduced mobility (PRM)

Provide access for a truck measuring 12 m long by 4 m wide, with a maximum gradient of 5% and a minimum clearance height of 3.5 m.

Duration	Training Location	Languages	Number of participants
2 hours	At Gingé-Kerr or at the client's site	French English German	Maximum 48 people per day

A personalized training certificate will be issued to the employer at the end of the internship.

FIRST AID TRAINING

FIRST AID (F.A)

Training objective

Be trained to provide first aid to a victim following an accident at work until emergency services arrive.

Training schedule

Theory:

- Protecting the victim, responders, and third parties
- Alerting emergency services
- First aid for the victim depending on their injuries

Practical:

- Simulation of various accidents relevant to the participants' work environment: bleeding, choking, fainting, burns, cardiopulmonary resuscitation, defibrillation, etc.
- Implementation of various technical procedures
- Practical exam

Prerequisites: None

Personnel concerned: General public

Refresher training: Refresher training scheduled every 5 years

Duration	Training Location	Languages	Number of participants
16 hours	At Ginge-Kerr or at the client's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the course.

REFRESH OF FIRST AID PROCEDURES - R.F.A.P

Training objective

Be trained to provide first aid to a victim following an accident at work until emergency services arrive.

Training schedule

Theory:

- Reminder of first aid procedures

Pratique :

- Simulation of various accidents, adapted to the participants' work environment: bleeding, choking, fainting, burns, cardiopulmonary resuscitation, defibrillation, etc.
- Implementation of various technical procedures

Prerequisites: Anyone who holds a first aid certificate that is less than 5 years old.

Personnel concerned: General public

Refresher course: Recommended for maintaining technical skills

Duration	Training Location	Languages	Number of participants
4 hours	At Gingé-Kerr or at the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.

INTRODUCTION TO THE USE OF THE AUTOMATED EXTERNAL DEFIBRILLATOR - A.E.D

Training objective

Be trained to perform cardiopulmonary resuscitation using an automated external defibrillator.

Training schedule

Theory:

- Protecting the victim, first responders, and third parties
- Alerting emergency services
- First aid for an unconscious victim who is breathing

Practical:

- Role-playing different scenarios
- Using an automated external defibrillator

Prerequisites: None

Personnel concerned: General public

Refresher training: Retraining every 2 years

Duration	Training location	Languages	Number of participants
4 hours	At Ginge-Kerr or at the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.

EVACUATION TRAINING

PERMANENT SECURITY AND FIRE PREVENTION OFFICERS M1

This training complies with the fire prevention requirements as stipulated in Article 46 of ITM-SST 1500.3.

Training objective

- Understand the causes and dangers of fire.
- Know how fire spreads and understand how it develops.

- Know how to use the various firefighting equipment.
- Know the responsibilities of the personnel concerned with regard to fire prevention and prediction
- Know how to evacuate the public and personnel

Training schedule

- Fire Module
- Evacuation Module
- Alarm Module
- Legal Module
- Regulatory Module

Prerequisite: Hold a first aid certificate that is less than 2 years old.

Personnel concerned: All personnel working as security guards and covered by ITM-SST 1500.3

Refresher training: Retraining every 5 years

Duration	Training Location	Languages	Number of participants
3 days Test included	At Ginge-Kerr or at the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.

NON-PERMANENT FIRE SAFETY AND PREVENTION AGENTS M2

This training complies with the fire prevention requirements stipulated in Article 46 of ITM-SST 1500.3.

Training objective

- Understand the causes and dangers of fire.
- Know how fire spreads and understand how it develops.
- Know what measures to take in the event of a fire or disaster.
- Know how to use different firefighting equipment.
- Know the responsibilities of the personnel concerned with regard to fire prevention and prediction
- Know how to evacuate the public and personnel

Training schedule

- Fire Module
- Evacuation Module
- Alarm Module
- Legal Module
- Regulatory Module

Prerequisite: Hold a first aid certificate that is less than 2 years old.

Personnel concerned: All personnel working as security guards and covered by ITM-SST 1500.3

Refresher training: Retraining every 5 years

Duration	Training Location	Languages	Number of participants
2 days Test included	At Ginge-Kerr or at the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.

SERVICE AND PREVENTION AGENTS IN CHARGE OF EVACUATION M3

This training complies with the fire prevention requirements stipulated in Article 46 of ITM-SST 1500.3.

Training objective

- Understand the origin and dangers of a fire
- Know how a fire spreads and understand its development
- Knowing what measures to take in the event of a fire or disaster
- Knowing how to use the various firefighting equipment Knowing the responsibilities of the personnel concerned with regard to fire prevention and prediction
- Knowing how to evacuate the public and personnel

Training schedule

- Fire Module
- Evacuation Module
- Regulatory Module

Prerequisites: None

Personnel concerned: All personnel working as security agents and covered by ITM-SST 1500.3

Refresher training: Retraining every 5 years

Durée	Lieu de Formation	Langues	Nombre de participants
8 hours	At Gingé-Kerr or at the client's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.

EVACUATION SUPERVISOR TRAINING

Training objective

- Be able to apply and communicate evacuation instructions in the event of a fire
- Test evacuation instructions and procedures to confirm their validity

Training schedule

Theory:

- Identify evacuation routes
- Know the role of each responder
- Alarms and alerts
- Welcoming external emergency services
- Know how to evacuate safely

Practical:

- Tour of the premises with trainees
- Simulation of an evacuation drill

Prerequisites: None

Personnel concerned: All persons designated as guides and rear guards or evacuation officers

Refresher training: To be planned in accordance with mandatory legal provisions and internal employer requirements.

Duration	Training Location	Languages	Number of participants
4 hours	At Ginge-Kerr or at the customer's site	French English German	Maximum 10 people

A personalized training certificate will be issued to the employer at the end of the internship.
